

RETROFITTING

ODYSSEYLINK103

HARDWARE

- 🔘 Unplug existing OydysseyLink from BP35 Power Management System
- 🔘 Plug new OydysseyLink103 node into BP35 transformer Power Management System

SOFTWARE

- 🔘 At the bottom of the Odyssey screen, you will see triangle, circle and square symbols.

- 🔘 Press the square symbol. The screen size will appear smaller. Then press the **clear all** in the top right corner. This will close the app and you will see the home screen of the car and caravan.
- 🔘 On the right-hand side of the home screen you will see either a gear cog or a white circle with 6 white dots in it, this is Settings menu. Please click on this to open.
- 🔘 Select Apps & Notifications
- 🔘 Select Odyssey app
- 🔘 Select Storage
- 🔘 Select Clear Data
- 🔘 Select OK
- 🔘 Then in the left-hand top corner, tap the back arrow ← once.
- 🔘 Select permissions.
- 🔘 Turn off Locations, then turn back on.
- 🔘 Return to Home Screen (Touch the square at the bottom of the tablet, then press clear all in the top right of the minimised screen)
- 🔘 On the home screen select Odyssey App.
- 🔘 Once the app is open, it will ask you to 'Allow Locations' select Allow.
- 🔘 Connection options will appear 'Scan or Close' click Scan.
- 🔘 While App is scanning you have 30sec to pair device with OydysseyLink103 node.
- 🔘 On the left-hand side of the OydysseyLink103, there is a small black round button. Press the black button to side of node withing 30sec scanning time.
- 🔘 An OD**** number appear OydysseyLink103on the app. Select the OD**** number .
- 🔘 Allow App to sync.
- 🔘 App will now be synced and ready for use.

Retrofitting OdysseyLink is required for SmartConnect compatibility. Requires BMPRO BatteryPlus35 power management systems revision 12B and above.
