

# PROSMART

POWERING YOUR ADVENTURES

ProSmart is a system that allows you to easily monitor water levels, gas levels, tyre pressure, temperatures and battery charge while on your adventures, all from an easy-to-use app on your smartphone.

Inside the ProSmart package is SmartLink, a powered node that can be easily installed and paired to your phone, allowing you to view your sensors through the ProSmart app.

Your battery can be connected to the ProSmart system using the included battery cable.

The ProSmart can be used anywhere where you have a 12V power source - such as your RV, truck, boat or 4WD!

Up to 40 SmartConnect Bluetooth sensors can be paired to the SmartLink and displayed in the official BM PRO ProSmart App, giving you a wealth of information at your fingertips.

## SPECIFICATIONS

Input Voltage Range	8V to 16V
Battery Drain	<20 mA
Ambient Temperature	-20°C to 60°C
Compatible Devices	iOS 13 or later Android 8 or later
SmartLink Dimensions	156W x 76H x 23D

## KEY FEATURES

### Monitor:

- battery voltage and charge status
- gas tank levels
- tyre pressure
- temperatures
